The Journal of Clinical Experimental Endocrinology & Metabolism has researched Depression and moody behavior and lack of sexual drive in Men and Woman; the main cause for this behavior was found to be lack of, or low amounts of Testosterone levels. See your health practitioner.

We are vibrating fields of electro-magnetic energy or morphogenetic energy, according to Science, and Sheldrake 2009.

All energy and thought in this dimension (The body), is first Primitive, then Mechanical (memorize), and then becomes spontaneous movement and thought. However, every Cell in the body knows our entire history without thought, and has all knowledge through our morphogenetic energy. (Lipton 2005, Myss 2005, Rosicrucian's).

Our Perceptions, beliefs and energy levels, along with our attitudes control our bodies.

You must find a way to REMEMBER yourself each moment, but we cannot without a practical application. (P.D. Ouspensky). Your voice is a great way to remember who you are moment by moment. (The Path to Peace by Alexandria L. Thomas)

Matter is compressed energy and we emit photons (light) all the time. (Rosicrucian's)

Thoughts, words, and deeds, create both positive and negative energy in your life and in the world. (Bible, & Dead Sea Scrolls).

Disease is caused by a distortion of information; conflict, chaos and confusion.
